

COA of recombinant Glutamate Dehydrogenase of Clostridium difficile

Short name: GDH

Catalog number: B0011-01-01

Lot number:

Source: recombinant expression

Form: liquid

Buffer: sterile 1×PBS (pH7.4),0.1%NaN₃

Concentration: mg/ml(Lot specific, determined by A280)

Purity: >90% by SDS-PAGE

reactivity: reaction with human antibodies specific to Clostridium difficile

Applications: Diagnostic antigen for detection of Anti-Clostridium difficile antibodies

Storage: -20°C for two years(4°C for frequent usage, -20°C for long-term storage. Avoid repeated freeze-thaw cycles).

Tips : The samples usually form an inhomogeneous state after freezing and thawing. Usually, protein concentration in the lower layer is higher than that of the upper layer. In order to get an uniform sample concentration, mix the sample gently with pipette and centrifuge it before use please.
