

COA of recombinant human Pepsinogen-II

Short name: PGII, PGC

Catalog number: B0402-04-02

Lot number :

Source: recombinant expression

Form: liquid

Buffer: sterile 1×PBS (pH7.4),0.1%NaN₃

Concentration:

Purity: >95% by SDS-PAGE

Immunoreactivity : reaction with monoclonal/polyclonal antibodies specific to human pepsinogen II molecule.

Applications: Immunogen, calibrator in immunoassays, in vitro studies

Storage: -20°C for two years(4°C for frequent usage, -20°C for long-term storage. Avoid repeated freeze-thaw cycles).

Tips : The samples usually form an inhomogeneous state after freezing and thawing. Usually, protein concentration in the lower layer is higher than that of the upper layer. In order to get an uniform sample concentration, mix the sample gently with pipette and centrifuge it before use please.
