

COA of recombinant human Myoglobin

Short name: Myo

Catalog number: B0203-01-01

Lot number:

Source: recombinant expression

Description: Our recombinant human Myo is a his-tagged protein with good immunological activity.

Form: liquid

Buffer: sterile 50mM Tris-HCl (pH8.2), 150mM NaCl, 0.1% NaN₃

Concentration: mg/ml(Lot specific, determined by A280)

Purity: >95% by SDS-PAGE

Immunoreactivity: reaction with the famous monoclonal antibodies (Medix:Anti-h myoglobin 7001,7004,7005) in a sandwich ELISA.

Applications: Immunogen, calibrator in immunoassays, in vitro studies

Storage: -20°C for two years (4°C for frequent usage, -20°C for long-term storage.

Avoid repeated freeze-thaw cycles).

Tips : The samples usually form an inhomogeneous state after freezing and thawing.

Usually, protein concentration in the lower layer is higher than that of the upper layer. In order to get an uniform sample concentration, mix the sample gently with pipette and centrifuge it before use please.
