

## COA of recombinant human free Retinol-binding protein 4

**Short name:** RBP4

**Catalog number :** B0104-04-01

**Lot number:**

**Source:** recombinant expression

**Description:** Our recombinant human RBP4 is an uncomplex form with good stability even it is challenged by a 37°C acceleration experiment.

**Form:** liquid

**Buffer:** sterile 1×PBS (pH7.4) ,0.1%NaN<sub>3</sub>

**Concentration:** mg/ml(Lot specific, determined by A280)

**Purity:** >90% by SDS-PAGE

**Immunoreactivity:** Reaction with polyclonal and monoclonal antibodies specific to human RBP4 molecule.

**Applications:** Immunogen, calibrator in immunoassays, in vitro studies

**Storage:** -20°C for two years(4°C for frequent usage, -20°C for long-term storage.

Avoid repeated freeze-thaw cycles).

**Tips :** The samples usually form an inhomogeneous state after freezing and thawing.

Usually, protein concentration in the lower layer is higher than that of the upper layer. In order to get an uniform sample concentration, mix the sample gently with pipette and centrifuge it before use please.
